

Testimonials

"I have found that intraMAX™ is the finest product I have distributed from my office. Patients attest to its taste, absorbability and benefits. There is a rapid recovery of well being and a desire to continue this product to maintain health."

Dr. Charles R. Hamel, M.D.

Diplomate American Board of Otolaryngology

"I have been using intraMAX™ and the results have been excellent. I continue to have substantial improvement in the quality of my life. I no longer take prescription drugs. I also have not had a cold or the flu in almost four years."

Mel Renfro

Former Dallas Cowboy and NFL Hall of Famer

"I have been using intraMAX™ since the summer of 1999 with amazing results! I must tell you, this is a truly remarkable product. I have noticed an increase in energy, stamina, and mental alertness since I began taking the product myself. My entire family is taking intraMAX™ with amazing results!"

Dr. Douglas C. Leber

Inventor of Computron Electro Dermal Screening (EDS) Machine

"I consider intraMAX™ the quintessential liquid nutritional supplement. Besides being great tasting, it gives each of my patients a balanced, energized feeling of well being. I am very impressed with the quality and the incredible research that has gone into this unique elixir. I encourage the use of this excellent tonic. I use this myself and will keep doing so. Dr. Drucker has produced a winner!"

Dr. Jerry Schwartz, N.D.

***intraMAX*™ does NOT contain:**

Preservatives, Colloids, Fat, Cholesterol, Wheat, Gluten, Caffeine, Corn, Yeast, Soy, Soybeans, Dairy, Milk, Egg, Peanuts, Treenuts, Crustacean Shellfish, Fish or Fish Oil, Animal Products, Artificial Additives, Artificial Colors, Artificial Flavors, Pesticides, Herbicides, Antibiotics (drugs), Chemicals, Salicylates, Starch, Binders, Fillers, Coatings, Excipients, Flow Agents or Synthetics.

It's hard to believe we fit it all-in-one bottle

Now over 415 nutrients!

Perfect Whole Foods & Phyto Nutrition - Super Energizing - All Natural Defense!

Why doctors turn to Drucker Labs

Since 1999, doctors have turned to Drucker Labs for our unique and proprietary "carbon-bond" (organic) technologies. Doctors and patients report outstanding results in detoxifying the whole body, boosting the immune system and accelerating autoimmune recovery. Our products provide maximum energy, strength, stamina, and vitality! Over 415, 100% organic microcomplexed™ minerals and nutrients create an overall balance of the body, preventing and resolving many illnesses and diseases.

Thousands of people now live healthier and happier lives as a result of Drucker Labs' ground-breaking "carbon-bond" organic nutrition with proprietary *intraCELL*™ V Technology.

The top reasons doctors believe in *intraMAX*™

- replaces ALL other supplements
- provides Optimum Daily Allowance (O.D.A.) of all essential nutrients
- maximizes energy, strength, stamina, and vitality
- helps fight off colds, flu, allergies, and disease
- boosts immune system and autoimmune recovery
- removes heavy metals and harmful toxins (via phase I & II detoxification)
- reduces scars, maintains skin moisture, and tightens skin
- reduces "free-radical" damage for anti-aging
- promotes healthy blood and bones
- natural anti-viral, anti-bacterial, anti-parasitic, and anti-fungal
- improves concentration, memory span, and other brain clarity functions
- reduces pain, inflammation and balances the body

***intraMAX*™ contains
over **415** nutrients
ALL-IN-ONE**

ALL INGREDIENTS ARE 100% ORGANIC MICROCOMPLEXED™ & HOMEOSTATIC:

- 70+, 100% organic microcomplexed™ trace minerals (full spectrum)
- 24 healing colors (homeopathic imprint & orangelically bound)
- proprietary organic "carbon-bond" *intraCELL*™ V Technology
- 154 antioxidants ("free radical" scavengers / anti-aging)
- 39 bach flowers (homeopathic & orangelically bound)
- 38 essential oils (homeostatic & organically bound)
- 12 essential fatty acids (EFA) - omega 3, 6 & 9
- carbon (living), 100% organic (144,500 mg/l)
- 42 amino acids ("building blocks" of protein)
- oxygen - 427 mg/l (dissolved & stabilized)
- 16 digestive enzymes (pure plant derived)
- 49 super green foods & phytonutrients
- 8 essential sugars (organically bound)
- 59 herbs (adaptogenic & supportive)
- 80 vitamins and nutrients (essential)
- 22 macro minerals (100% organic)
- 27 vegetables (antioxidant rich)
- 65 electrolytes (100% organic)
- aloe vera (organically bound)
- 11 optimum seeds & sprouts
- 8 protein mineral nutrients
- 36 fruits (antioxidant rich)
- silver (organically bound)
- noni (organically bound)
- 13 probiotics (non-dairy)
- 12 carotenoids (mixed)
- 25 fibers (all natural)
- ultra hypoallergenic
- fulvic acid (9.2%)
- 119 bioflavonoids
- 100% vegetarian
- 100% drug free
- NO additives
- 100% natural

What is *intraMAX*™?

intraMAX™ is a 100% organic (living, g/carbon-based) microcomplexed™ liquid trace mineral supplement, **plus** an **all-in-one** multi-nutritional dietary supplement and much more. It contains 70+ organic trace minerals, along with critical health promoting and life sustaining “super foods & phyto-nutrients.” *intraMAX*™ totals more than **415**, 100% organic microcomplexed™ essential nutrients in each ounce. “*intraMAX*™ is the most scientifically advanced, clinically tested and proven, health promoting organic nutritional supplement available!”†

Why do I need organic minerals?

*“Every ailment, every sickness and every disease can be traced back to an organic mineral deficiency.”** Without organic trace minerals as a carrier, vitamins and other nutrients are not as effective. Cells cease to function, the immune system weakens, the nervous system deteriorates and the body begins to age more rapidly. True 100% organic microcomplexed™ minerals and nutrients are critical to maintain health, promote healing, and prevent illness and disease.

Do I get enough organic minerals and nutrients from my food?

No. “99% of Americans are deficient in organic minerals because inorganic (dead, synthetic) toxic chemicals, pesticides and herbicides have destroyed nearly **all** the critical living organic minerals, elements, and complexes in our soils. A marked deficiency in any one of the more important minerals actually causes disease.” **

Do I get organic minerals and nutrients in most multi-vitamins?

No. And the question really is, will your body absorb and utilize those found in most products? “*It is a fact that only 20% to 25% of all minerals and vitamins you have been taking (from almost all) products are absorbed & utilized by your cells.*”† This is because they are mostly inorganic (synthetic, dead, toxic, colloidal), which means these non-absorbable synthetic minerals and elements are generally too large to effectively penetrate cell walls. Therefore, inorganic elements and minerals are of little or no benefit! Moreover, many doctors believe inorganic elements and minerals (i.e. colloidal minerals, coral liquids, etc.) may in fact accumulate over time in our body's extra-cellular spaces, interstitial fluid and fatty tissue, potentially causing even more toxicity and disease.

What makes *intraMAX*™ so unique?

After 15 years of dedicated research, *intraMAX*™ is the **ONLY** product of its kind in the marketplace with 70+ 100% organic microcomplexed™ trace minerals, fulvic acid, (living, carbon), oxygen (dissolved & stabilized), metallo-enzymes and proprietary *intraCELL*™ V Technology. Our exclusive technology provides cells with virtually 100% absorption, utilization and nutritional benefit in every dose of *intraMAX*™.

Organic Trace Minerals are true 100% organic microcomplexed™ minerals containing living carbon. When Drucker Labs uses the word “organic” we are **not** referring to the common commercial use of the word “organic,” which means produced without the use of toxic chemicals, pesticides, etc. We are referring to the more important and true scientific connotation of the word “organic,” which means containing “living carbon” **not** dead (synthetic, toxic) carbonate. True 100% organic (living) microcomplexed™ carbon based trace minerals and nutrients can **ONLY** be obtained from Drucker Labs. After years of testing, Drucker Labs has determined most trace mineral products do **not** contain sufficient quantities of true organics (living carbon, oxygen, fulvic acid) to strengthen our immune system and sustain good health.

Each bottle of *intraMAX*™ takes 30 days of proprietary processing to yield 144,500 mg/l of **living organic carbon**.

Fulvic acid is the end product of nature's decomposition process. Fulvic acid contains most of the phytochemical protective (anti-aging / antioxidant) nutrients and substances from the original living organic plant matter. Even the smallest strands of RNA, DNA and organic plant photosynthetic material remain intact. Over time, the original components become organically complexed and enriched with metallo-enzymes and other critical organic material.

Fulvic acid is proven to have numerous unique capabilities for essential intra-cellular and extra-cellular detoxification functions. Because fulvic acid is so highly refined and naturally chelated, it consists of 100% organically complexed and ultra-tiny molecules which easily penetrate human tissues and cells.

Fulvic acid is highly bioactive at the cellular level, providing innumerable biochemical and metabolic functions. Scientists also believe fulvic acid directly contributes to the “**spark of life**” itself. It contains latent solar energy matter and remnants of most plant photosynthesis.

Fulvic acid is simply nature's most precious form of protection and defense for plants, animals, and possibly even mankind. Unquestionably, it is tied closely to immune system functions and has exceptionally powerful antioxidant (anti-aging) qualities.

Drucker Labs *intraCELL*™ V Technology

is our latest proprietary ground-breaking “carbon-bond” technology. It rapidly changes inorganic (dead) trace minerals, nutrients into living 100% organically complexed (carbon-based) living trace minerals, nutrients, poly-electrolytes, metallo-enzymes, etc. How does it work and how does my body benefit from it?

- First it surrounds, then polymerizes an inorganic molecule (toxin) with living organic carbon, then instantly breaks it into very tiny (ultra-chelated) restructured organically complexed molecules.
- Second, *intraCELL*™ V Technology converts inorganic toxic elements (and molecules) to be 100% organically microcomplexed™ elements (and molecules) for maximum intra-cellular and extra-cellular detoxification via the cytochrome P-450 II pathway (colon) as well as the skin and urine.
- Then, *intraCELL*™ V Technology can instantly infuse over 415 life promoting, 100% organic microcomplexed™ nutrients into the cell. **The result is vibrant health for the WHOLE body!**

Why other manufacturers do not have living organic carbon in their products

- They do not use adequate amounts of humified organic plant matter.
- Their ingredients are derived from plants grown in soils depleted of critical organic complexes and nutrients.
- They do not take the necessary precautions and expense (technology and equipment) to preserve the organic (living) carbon in the extraction and manufacturing process.

† Dr. Richard A. Drucker, B.S., M.S., N.D., N.M.D., Ph.D. (c)

* Linus Pauling - two time Nobel Prize winner. (categorical statement)

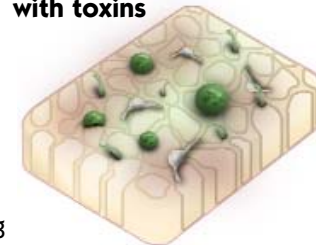

** 74th Congress, second session regarding organic minerals. (categorical statement)

What does *intraCELL*™ V Technology do for you?

STEP 1

Large inorganic (insoluble, synthetic) toxins (between 1 & 100 nm in size) - are accumulated over time & stored permanently in fatty tissue, interstitial fluids (extra-cellular spaces), and intra-cellular spaces, causing toxicity and disease.

intestinal wall or fatty tissue with toxins

STEP 2

Carbon (organic, living, non-toxic) - instantly attaches to inorganic toxins. There is 144,500 mg/l of proprietary organic (living) carbon in each bottle of *intraMAX*™ - **the key!**

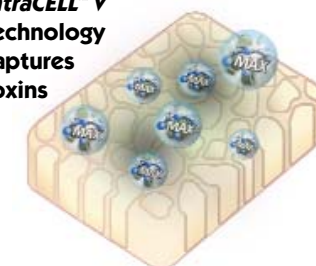

intraMAX™ attaches to toxins

STEP 3

Polymerization occurs and a new non-toxic polymer is quickly created - inorganic toxins are broken down into ultra-tiny (ultra-chelated) **non-toxic** organic microcomplexed™ particles.

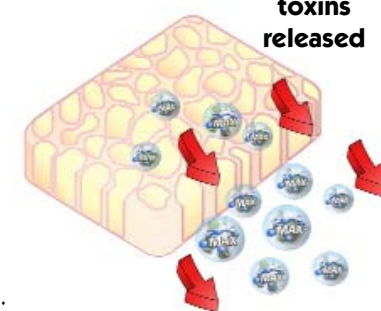

intraCELL™ V Technology captures toxins

STEP 4

Inorganic toxins are released and removed from the body through the skin, urine, and colon.

toxins released

Your Body Benefits:
maximum energy, strength and well-being!
